

Sexual assault is any sexual contact made without consent. Consent is a clear yes, not the absence of no.

Dating/domestic violence refers to an ongoing pattern of controlling and abusive behaviors that individuals use against their intimate partners. These behaviors include physical, sexual, or emotional attacks and/or economic control.

Stalking is a course of conduct that causes the victim to experience serious emotional distress or to fear bodily injury or death. Conduct may include: sending the victim unwanted items or gifts; repeated calls, emails, or texts; showing up at the victim's home, workplace, or class.

You are not at fault if any of these things have happened to you.

What about alcohol?

Most sexual assaults on college campuses involve the use of alcohol, and victims often fear getting in trouble if they report. Both state law and university policy prohibit this.

Neither the Dean of Students, University Housing nor UW-Madison Police will pursue disciplinary actions against the student victim (or against a witness) for his or her improper use of alcohol (e.g., underage drinking).
